DCMO BOCES Chapter of the National Technical Honor Society

Dear Theodore Tubbs,

Congratulations! You have been nominated, without reservation, by your CTE instructor and your home school Guidance Counselor, for membership in *National Technical Honor Society*. Due to your academic average of 85% or better, at both DCMO BOCES and your home school, you are eligible to be considered for membership in the DCMO BOCES Chapter of the National Technical Honor Society. Membership in the organization is open to students who have maintained a record of outstanding employability skills *and attendance*, in addition to academic achievement.

Students should be actively involved in a CTE Center leadership/service organization, a home school organization or a community organization. Membership in NTHS is one way for DCMO BOCES to recognize your achievements. It is a nationally recognized distinction.

If you wish to be considered for membership in NTHS, complete and return the enclosed forms by **Monday, October 17th**. Your qualifications for membership will be reviewed and those students who are chosen for induction in the National Technical Honor Society will be notified on **October 19th**. The induction ceremony will be held at the Chenango Campus BOCES on **Wednesday, November 16th**. You are required to be present.

We commend you for your achievements! If you have questions, please see Connie Hulbert or Mary Carson, NTHS advisors.
